

KIDS FOR KIDS - GIFT LIST transform a child's life

KIDS FOR KIDS' goal is to improve the lives of children in one of the harshest environments in the world - Darfur, Sudan. In one village alone 30 families returned to their homes because they had heard KIDS FOR KIDS was there and they thought it would **"give the village a chance"**. **Can you help give a village a chance?**

KIDS FOR KIDS ...helping families take care of their own future

Educate people to care for themselves:

Our **community training** ensures the long-term success of our projects and empowers women and children to manage their own lives. We train villagers in accountability, book keeping, and monitoring so that all our projects are sustainable, even when we cannot get to the villages ourselves.

Goats:

A vital asset in Darfur. Goat's milk is often the only source of vitamins and proteins. We lend six goats to a family for two years, then six kids go to another family...and another.

One goat at a time - provide just 1 Goat and you change a child's life - 1 goat \$30

Sponsor a village and you will make a major impact on many lives immediately - and for years to come.

Every single thing we do helps, but combined, the impact is dramatic.

Projects are integrated - each plays a crucial role in helping families to survive.

Healthy animals have a direct effect on the health of children, so we provide **veterinary care**. Keeping animals healthy is vital to safeguard the flocks and to provide an irreplaceable livelihood for families.

Health Care:

There is virtually no health care in rural areas. Women risk 'rope' delivery. Our **trained midwives** are caring for young mothers and their babies in KIDS FOR KIDS villages. Because of the conflict we also fund **Firstaid Training**.

Our plan is to adopt 30 new villages over the next 3 years.

There are 22 KIDS FOR KIDS villages already helping over 100,000 people.

The direct cost to introduce KIDS FOR KIDS projects to these villages is from \$49,000 to \$92,000... so little to help so many children. Each village will have a sign bearing the name of its sponsor.

Water:

Even young children may have to walk up to seven hours to reach water and carry it back home. Providing a **hand pump** near their school or home transforms lives. Provide a hand pump and children can go to school.

Donkeys:

The mainstay of life in Darfur. Our donkeys help families collect water, transport the very young and the very old, carry firewood both to use and sell (a critical source of income when crops have failed), to plough, and to pull our donkey carts. "Without a donkey we cannot go home" said Amira, who has been living with her children in a tent for four years.

A **Donkey** is essential to carry water - and everything else. Extra water can be sold, and the donkey can even be rented out, which pays the 24 cents needed to provide water each day for the 6 goats we lend. Our first **donkey ambulance** saved Abdulla's life within ten days of its arrival at Kerkerra - he has four children.

Children need **solar lanterns** to do their homework in the dark and midwives need light for night deliveries.

Tree Nurseries:

Help to slow desertification - replace trees cut for fuel and for rebuilding houses destroyed in the conflict, and provide fruit and a cash crop. Offset your carbon footprint by providing tree nurseries, water harvesting training and solar energy.
