

HELPING

IN

CHILDREN

SUDAN

KIDS FOR KIDS is providing long term self sustainable projects to families living in villages in remote areas in Sudan – where there is virtually no other help.

Our simple projects – **goat loans** to provide milk, **donkeys** to carry water and fodder, **village midwives** to help save young mothers lives, **paravets**, **irrigation techniques**, **tree nurseries**, and lots more – all long term, all life changing when you have so little.

Since 2001 **KIDS FOR KIDS** has helped 40,000 people in Darfur, thanks to its implementing partners, Practical Action. We are continuing to bring help, despite the current conflict – help that is even more urgently needed now.

This year our aim is to work with 10 new communities - 50,000 people in need of our projects in villages in Darfur, and we are planning to do more in other areas.
