

# Please will you help us keep our Promises?

**Kids for Kids projects are all sustainable.** We work closely with communities for the first two years – everyone who works with us in a village is a volunteer!

They know exactly what they can expect from us, and what we expect from them, to ensure that everything we provide has lasting benefit for everyone in the village – especially the children.

It is heart-breaking to see the shocking deprivation in every village and every straw hut that people call home.

## PLEASE HELP US MAKE A LASTING DIFFERENCE

By donating regularly you will enable us to be confident that what we say we will do – we will do! We would never let anyone down. When you have so little, even the smallest help gives people hope and makes a real tangible difference. Can you imagine seeing your children sleeping safely under a mosquito net for the first time?

See how far your regular support can go. Our Gift List shows how we save a child from starvation with our goat loans. We open the door to education with our Kindergartens. Crucially our handpumps are not only close to villages but they provide clean water. We fund what you choose. Be part of our incredible projects.

Would you like to become a **Children's Champion** - someone who commits to funding the projects of your choice for three years? You can choose the level of your support from providing goats and donkeys to adopting an entire village.

**Our projects are long term.** One of the key causes of deprivation in Darfur is desertification – the advance of the Sahara. It is at the forefront of global warming. By planting trees we are stabilising the soil. Just think - £50 a month and we will be able to plant 60 wonderful shade trees every year!

## DONATE REGULARLY AND YOU GIVE A CHILD A FUTURE
